

Are You Aware of your PED Responsibilities?

Is your hose supplier PED accredited?

- ▶ The Pressure Equipment Directive (PED 97/23/EC) became mandatory law in May 2002.
- ▶ The purpose of the PED is to harmonise standards across the EU regarding the design, manufacture and supply of all pressure equipment to the market.
- ▶ Hose assemblies are considered to be pressure equipment.
- ▶ Supplying hose assemblies without PED approval could result in prosecution and penalties, on conviction, of a fine or imprisonment REF: Pressure Equipment Directive November 1999
- ▶ PED regulations apply to hose assemblies where the working pressure is greater than 0.5 bar and a calculation must be conducted on equipment with a nominal bore greater than 1 inch (DN 25).

REF: Schedule 3 (annex to the Pressure Equipment Directive) Conformity Assessment Tables

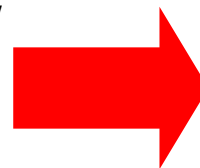

Dixon are authorised to
CE Mark under their
PED certification

Lloyds' Register Verification Ltd certifies all Cat.I & Cat.II flexible hoses from Dixon Group Europe to PED 97/23/EC Module D1.

The PED forms an integral part of Dixon's business management system. All PED information given by the customer is securely stored for future reference if required.

Remember: the liability lies with the individuals / company supplying the pressure equipment into the market place.

If the hose assembly is not correctly classified and certified accordingly, this is **breaking the law**.

Use Dixon as your No:1 supplier for certified hose assemblies

Think Safety - Think Dixon
